

TableTools example

Preamble

This example shows how you can add a message to the saved PDF using the 'sPdfMessage' parameter. It also shows that the orientation of the output PDF can be changed to landscape which is useful if you have a lot of columns.

Live example

Initialisation code

```
$(document).ready( function () {
    $('#example').dataTable( {
        "sDom": 'T<"clear">lfrtip',
        "oTableTools": {
            "aButtons": [
                "copy",
                "csv",
                "xls",
                {
                    "sExtends": "pdf",
                    "sPdfOrientation": "landscape",
                    "sPdfMessage": "Your custom message would go here."
                }
            ],
            "print"
        }
    } );
} );
```
